Applicant Checklist

For full consideration, applications must include the following items:

__ Application narrative, limited to 5 pages (maximum), single-spaced 11pt Arial or larger, ½ inch margins, and must include:

- __ Description of the research and training environment
- __ Description of the mentoring program
- __ Proposed research plan, including tables and figures (references not included in the 5-page limit)
- __ Applicant career goals
- __ Budget and justification (justification not included in the 5-page limit)

__ Bio sketches ([NIH format](#)), including current and pending other support, for the fellow and all mentors. *

__ Mentor/s letter of support

__ Institutional letter of commitment supporting the fellows proposed research project, commitment to provide the infrastructure outlined in the proposal, and commitment to the fellow's participation in ADCES research committee activities.

* Concurrent Awards: Grant funding supporting the applicants research projects is allowed. Concurrent fellowship awards supporting the applicant's effort is not allowed. All grant funding and proposed funding will be reviewed in the application process. Please note any overlap.
